

**SPECIFICATION**

Free Standing Waste Bin shall have a capacity of 73 litres. Unit shall be fabricated of alloy 18-8 stainless steel, grade 304, 22 gauge with No. 4 satin finish and be protected during shipment with a PVC film easily removable after installation. Bin shall have no exposed fastening devices or spot welded seams. Bin shall have two continuous vinyl wall protectors, top and bottom, around entire perimeter. Unit shall have hooks for interior liners. Top shall be removable for easy maintenance and have two swing doors hung on heavy duty spring loaded stainless steel multi-staked piano hinges to return doors to closed position. Each door shall have the international waste symbol affixed to it. Bottom of bin shall be equipped with four (4) non-removable rubber supports. Bin shall be supplied with top as per schedule and model specified.

**INSTALLATION**

Waste bin is free standing and shall be placed in appropriate position on finished floor.

**WARRANTY**

JD MacDonald Waste Bins come with (Voluntary Product Warranty), the terms of which can be found at [www.jdmacdonald.com.au/about](http://www.jdmacdonald.com.au/about)

**OPERATION**

Waste material is deposited into the bin through opening or through the push in doors. Use of a disposable trash liner bag is recommended. The disposal bag is removed by disengaging the bag from the hooks on a cycle determined by maintenance needs.

**Free Standing Waste Bin** with swing top shall be Model No. 0812 as supplied by JD MacDonald.
