

SPECIFICATION

Surface Mounted Sanitary Napkin Disposal unit shall have door and cabinet fabricated of alloy 18-8 stainless steel, grade 304, 22 gauge. All exposed surfaces shall be No. 4 satin finish and be protected during shipment with a PVC film easily removable after installation. Top cover is attached to cabinet with a full length 5mm diameter stainless steel multi-staked piano hinge. Structural assembly of body and door components shall be of welded construction. Top cover shall have lift handles at each end fabricated as one piece with top.

INSTALLATION

Unit is surface mounted on wall or partition No. 10 self tapping screws (supplied by others). Two (2) mounting holes through back are "keyhole" slots for ease in hanging unit on pre-installed screws.

OPERATION

User lifts lid to deposit waste material. Maintenance schedule determines trash removal cycle. Unit is emptied by top door and removing wax paper collection bag. Waxed paper liner bags are furnished by janitorial personnel.
